Overview

Computer Science graduate with strong fundamentals in **Python**, **SQL**, and backend development using **Django**. Experienced in building real-world applications, including a multi-language online compiler and a driver drowsiness detection system. Skilled in designing backend logic, handling data processing, and integrating frontend with backend systems. Familiar with web technologies like **React**, **HTML**, and **CSS**, and eager to contribute to scalable and efficient software solutions.

Projects

Driver Drowsiness Detection System

- Utilized computer vision techniques to monitor facial features
- Implemented detection of drowsiness indicators based on facial behavior.
- Built a responsive frontend using **Bootstrap** for user interaction.
- Developed a **Django**-based backend to process data and manage system logic.
- Integrated an alert mechanism to warn the driver when drowsiness is detected.
- Technologies used: **Python**, **OpenCV**, **Django**, **Bootstrap**.

Codux

- Developed Codux, an online compiler supporting **Python**, **Java**, **C**, and **C++**.
- Enabled users to write, compile, and execute code directly within the platform.
- Implemented support for interactive input as well as one-time input execution.
- Designed a user-friendly and responsive interface using **React**.
- Integrated **Monaco Editor** for an enhanced code editing experience.
- Built a robust **Django** backend to handle compilation and execution logic.
- Utilized **SQL** for data storage and management.
- Technologies used: **Python**, **Django**, **SQL**, **React**, **Monaco Editor**.

Skills

Programming Languages: Python, Java

Frameworks and web: Django, REST API, React, HTML, CSS

Core Concepts: OOPs, DBMS

Database: SQL(MySQL)

Tools: Git, GitHub, VS Code

Education

Bachelor in Computer Engineering, IPS Academy, Indore

Nov 2021 – Jul 2025

- CGPA: 6.5/10.0

Junior College, Adarsh Academy, Dhamnod

2020-2021

- Percentage: 62%

High School, Adarsh Academy, Dhamnod

2018-2019

- Percentage: 55%

Achievements & Certifications

- Python for Data Science Certification
- IBM MongoDB Bootcamp Certification, LetsUpgrade
